

WILLISTON, North Dakota – March 3, 2014 – The Board of Directors of 1804 Operating, LLC is pleased to announce they have hired Tommy Thompson as Vice President of Pipeline Engineering. Mr. Thompson assumed his role today.

C.E.O., Patrick Walker said, “We are very excited to have Mr. Thompson as a part of the Company’s management team. His extensive experience designing and constructing water-gathering systems will be a tremendous asset as we continue to move forward with our midstream approach to the saltwater disposal business.”

As Senior Facility Engineer for Oasis Petroleum, Mr. Thompson constructed over 330 miles of production and freshwater pipelines, started 11 SWDs, and constructed and began Oasis' first DOT-regulated gas gathering line. Mr. Thompson has a degree in Mechanical Engineering from Mississippi State University with minors in Business, Economics, Entrepreneurship, and Math.

#### **About 1804 Operating, LLC.**

1804 Operating owns and operates saltwater disposal wells throughout the Bakken. It serves both major and independent oil companies to meet their fluid handling needs. For more information, please visit [www.1804operating.com](http://www.1804operating.com).
